

# West Bend School District Update

March 8, 2023

## More Winter Weather

March weather has been described as "...in like a lion, out like a lamb." It seems that may be true as another storm is predicted for Thursday, March 9 into Friday, March 10.

The timing of this storm will influence our status for Friday. The possibilities include a regular day, a late start if the snow falls as predicted, or even a full-day building closure and using distance learning. A determination will be made after a 3:45 a.m. (Friday) call with the National Weather Service and consultation with people checking the road conditions. If there is to be a late start or building closure, notifications will be made via phone, email, TV stations, and our website and social media.

If school is in session and you prefer to wait to arrive later due to weather or you are unable to participate in distance learning should it occur, just contact the school office for an excused absence. (See school numbers below.) With warmer air and road temperatures, we are hoping that the 4"-8" of predicted snow does not impair travel.

We suggest families review the distance learning information on [our website](#). Students in grades 7-12 can check their school email for building closure notification. Please remind your students to bring their Chromebook home!
