

Book	POLICY MANUAL
Section	400 STUDENTS
Title	Student Use of Electronic Communication Devices
Code	443.5
Status	Active
Adopted	April 24, 2023
Last Reviewed	July 8, 2024

Building principals are authorized to establish school rules and acceptable use guidelines for students' limited and non-disruptive use of electronic devices for educational, safety, medical, vocational, or other legitimate reasons. A student device may be confiscated by staff.

The rules shall permit students to use a personal electronic device as needed (e.g., to contact a responsible adult) in any emergency situation that involves an immediate threat to the health, safety, or property of any person. However, when carrying out school emergency response plans an administrator or other staff member may direct students to turn off their personal electronic devices so that emergency communication networks are not overwhelmed and so that emergency response efforts are not jeopardized.

Students shall not use electronic communication devices:

- To engage in bullying or harassment.
- To communicate test answers, photograph tests, or engage in any other conduct that constitutes or facilitates academic dishonesty.
- To take, disseminate, transfer, or share any images, recordings, or other content that is obscene, lewd, illegal, sexually-explicit, or otherwise inappropriate for the school setting, which includes disorderly conduct.
- In areas where other people have a reasonable expectation of privacy, including all locker rooms, bathrooms, or other changing areas (except in an emergency).
- In violation of the District's rules surrounding students' acceptable use of technology.

Possession and use of an electronic communication device by a student under this policy is a privilege. A student who chooses to exercise this privilege does so subject to the following conditions:

- The District is not responsible for the safety or security of personal electronic equipment that students possess or use at school or at a school-related activity. Students who possess or use such device(s) do so at their own risk with regard to possible theft, damage, misappropriation of data/equipment, or other loss.
- If the District determines that a student has possessed or used such a device in violation of the law, this policy, or a school rule or directive, the student is subject to appropriate school-imposed consequences, such as the possible loss of privileges, suspension, and/or expulsion. The District may also refer certain matters to law enforcement.
- If a District official has reason to suspect or determines that a student has possessed or used an electronic device in violation of the law, this policy, or a school rule or directive, a District official may temporarily confiscate the device and/or turn the device over to law enforcement.
- A device possessed or used by a student may be subject to an appropriately limited search by a District official when the official has reason to suspect that such a search may lead to evidence of a crime or a violation of Board policy or school rules. The scope of any such search will be limited to the suspected violation.

To the extent prohibited by law, school employees shall not request or require a student to disclose the access information for any of the student's personal Internet account(s), including those that may be accessible through a student's personal electronic communications device.

Neither this policy nor any school rules shall be construed to limit a student's ability to possess and appropriately use an electronic device that functions as assistive technology that is necessary for a student's education and that is required or authorized under an individualized education program (IEP) or a Section 504 plan.

Students shall be informed of this policy annually via student handbooks.
