Code	453.36
Status	Active
Adopted	October 26, 2009
Last Revised	February 20, 2023
Last Reviewed	July 8, 2024

In order to adhere to the safety of the school community and control the spread of certain communicable diseases, including Pandemic Flu, the Superintendent/designee shall implement procedures assuring that all school buildings are in compliance with the Wisconsin Division of Health and Family Services and Washington County Health Department's rules and regulations regarding the presence of persons who have infectious diseases deemed dangerous to the public health. Such procedures will also prescribe the manner in which safeguards are taken to remove the danger to others.

Closures of various school sites will be determined in collaboration with Washington County Health Department, and will be based on the number of students and staff absent due to a specific and confirmed illness.
