The Board of Education supports a parking policy that is fair and equitable to all students. Students are responsible to maintain appropriate school registration of the vehicle as well as displaying proper school identification within the vehicle. Any changes should be promptly reported to school officials.

Student parking fees will be determined annually. These fees permit the user to display identification allowing for parking within the school designated parking areas.

The school administration shall draft and implement a set of guidelines that reflects a fair and equitable approach which promotes maximum usage of available parking. Seniors will be given first priority status.
