Members of the professional staff shall be encouraged to take an active part in the community affairs of the West Bend School District. The school and the community should not be considered separate and apart, but as working as a unified whole in the educative process. Through dynamic leadership, many avenues may be opened for building community support.

The Superintendent is urged to identify himself/herself personally with the many facets of community life, providing opportunities for all citizens, including, non-parents, to experience relationships with the District leadership.

The principal as the leader of his or her school is encouraged to be an active and leading member of the school community.

Teachers and other school employees are encouraged to be active and assume leadership roles in community organizations as another vehicle for communicating with the public about our school operation.
